

Connecting to SharePoint

If you are connecting from your office PC on campus to SharePoint, you likely will NOT be prompted to log in – your PC passes your Law credentials to SharePoint automatically.

- SharePoint is accessible from Windows and Apple computers and laptops
- It is NOT accessible from iPads and iPhones.

We recommend Internet Explorer and Firefox for use with SharePoint.

If you are connecting to SharePoint from off campus, from a home computer, etc., you will be prompted for credentials. You will need to enter:

- For User Name: **lawschool\Your Username** -- Your Username is the name you enter when you log into your Law PC, or into Webmail
- For Password: **your Law Password**. It's the password you enter when you log into your Law PC, or into Webmail

See the image below as an example
